[Authors]. Rifapentine Pharmacokinetics and Tolerability in Children and Adults Treated Once Weekly with Rifapentine and Isoniazid for Latent Tuberculosis Infection. Journal of the Pediatric Infectious Diseases Society, in press.

II. Presentations and Abstracts

1997

1998

1999

Bock N, for the Tuberculosis Trials Consortium. Safety and tolerability of once-weekly rifapentine/isoniazid (INH) vs. twice-weekly rifampin/INH in the continuation phase therapy of pulmonary tuberculosis in HIV-negative adults in USPHS Study 22. Poster presentation, 30th IUATLD World Conference on Lung Health, Madrid (Spain), September 1999.

2000
A Vernon for the TB Trials Consortium. TBTC Study 22 (Rifapentine Trial): Preliminary Results in HIV-negative Patients. Invited presentation at Rifapentine Evening Symposium, Meeting of the European Region of the IUATLD, Budapest (Hungary), April 2000.

2011

Modeling the pharmacokinetics of rifapentine in TB patients receiving 600 mg daily. 4th International Workshop on Clinical Pharmacology of TB drugs. 2011.

2012

Sterling TR, Benson CA, Shang N, Villarino ME, the AIDS Clinical Trials Group, and the Tuberculosis Trials Consortium. Tolerability among HIV-infected persons of three months of once-weekly rifapentine + INH (3HP) vs. 9 months of daily INH (9H) for treatment of latent tuberculosis infection: The PREVENT TB Study (TBTC Study 26/ACTG 5259). International AIDS Society, July 2012.

Sterling TR, Benson CA, Shang N, Villarino ME, the AIDS Clinical Trials Group, and the Tuberculosis Trials Consortium. Tolerability among HIV-infected persons of three months of once-weekly rifapentine + INH (3HP) vs. 9 months of daily INH (9H) for treatment of latent tuberculosis infection: The PREVENT TB Study (TBTC Study 26/ACTG 5259). IV Congreso Nacional de Gesida, Spain, November 2012.

2013

Kolwijck E, Friedrich SO, Venter A, van Ingen J, Diacon AH. Effect of culture supernatant containing resuscitation-promoting factors on the growth of M. tuberculosis from sputum samples collected during antituberculosis treatment. European Society for Clinical Microbiology and Infectious Diseases, April 27-30, 2013, Berlin, Germany.

Kolwijck E, Friedrich SO, Venter A, van Ingen J, Diacon AH. Effect of culture supernatant containing resuscitation-promoting factors on the growth of M. tuberculosis from sputum samples collected during antituberculosis treatment. European Society for Clinical Microbiology and Infectious Diseases, April 27-30, 2013, Berlin, Germany.

Weiner M and MacKenzie W. Substudy to characterize rifapentine pharmacokinetic (PK) parameters in patients with TB. Pharmacokinetics and pharmacodynamics of rifapentine and rifampin. 6th International Workshop on Clinical Pharmacology of TB Drugs, Sept 2013

Weiner M and MacKenzie W. Substudy to characterize rifapentine pharmacokinetic (PK) parameters in patients with TB. Pharmacokinetics and pharmacodynamics of rifapentine and rifampin. Gates sponsored TB Modeling and Analysis Consortium meeting in Beijing, China

Weiner M and MacKenzie W. Substudy to characterize rifapentine pharmacokinetic (PK) parameters in patients with TB. Pharmacokinetics and pharmacodynamics of rifapentine and rifampin. CPTR meeting in Washington, DC - October, 2013

Dorman S and Goldberg S. Study 29X, Phase 2 clinical trial, is to compare tolerability and safety of arms containing escalating doses of rifapentine. Presentation, INTER-TB, St. George's University, 25 October 2013

Dorman S and Goldberg S. Study 29X, Phase 2 clinical trial, is to compare tolerability and safety of arms
